FREEDOM OF INFORMATION 2017-2018

A brief description of our public body is as follows:

1. United Township High School is a comprehensive high school district committed to meeting the educational needs of students from a wide variety of ethnic, racial, economic and social backgrounds. To fulfill its commitment, the school provides a wide range of possibilities for acceleration, enrichment, and development of remediation. Limited only by individual aspirations, skills and abilities, students have opportunities to build basic communication and computations skills in order to become productive employees; prepare for vocations in a rapidly changing technological society; and develop skills and understandings required for success in colleges and universities. The ultimate mission of the school is to foster excellence in terms of academic achievement, growth in vocational abilities, development of social skills and appropriate attitudes of citizenship, and accomplishment in co-curricular activities. As it assumes these responsibilities, the school recognizes that the members of the communities it serves are equal partners in this enterprise and that together they share a responsibility for defining the needs of students and determining how the resources of the district are to be employed on behalf of young people.
