❖ **Deadline for Registration:** **JUNE 19, 2017**

## PANTHER SKILL ACADEMY

The **PANTHER SKILL ACADEMY** is designed to improve your skill level in the areas of Shooting, Dribbling, and Passing. This school is for any boy that is interested in working on the fundamentals of basketball to help improve their game so they can participate at a higher ability level. The camp is open to boys 5<sup>th</sup> grade through high school for the 2017-18 school year.

It is my belief that basketball is the greatest skill sport of all and in order to compete and succeed at a high level a player must be able to excel at shooting, passing, and dribbling. This is accomplished by hard work, dedication, time spent on your skills, and attention to detail. Our coaching staff believes that our skill academy will accelerate the improvement of the players that attend. However, a player's skills will only improve through a determined work ethic and a desire to be great. Good players work daily to improve their game so continuation of the drills provided by attending our skill academy is a must in order to further your improvement and make you a much better player.

This skill camp will give individual and group instruction in the areas of Shooting, Dribbling, and Passing. We will teach stationary ball handling drills to improve ball control as well as a variety of dribbling moves. Players will learn advanced one and two ball dribble moves that will improve the hand-eye coordination that is so important to play at a high level. We will also use tennis balls in a workout designed to further accelerate the ball handling ability of our players. I will break down proper shooting form. Players will learn how to shoot from the triple threat position, shoot stepping into your shot, shooting off of a variety of screens including down screens, flare screens, ball screens, shooting off the dribble as well as in the open court. Players will learn a wide variety of shooting drills and games that can be done on their own at home. It is extremely important for players to continue skill work every day after camp is complete. As with any physical skill, your skills will diminish over the course of time if not worked at every day.

Thank you,

*Ryan Webber*
